Description

The Tesla Model 3 Premium AWD is equipped with two electric motors (one front and one rear), providing all-wheel drive. This configuration delivers faster acceleration and better traction, especially on slippery roads. The WLTP range is approximately 660 km, and the vehicle weighs around 1,824 kg.

The more powerful drivetrain and AWD system allow for quicker 0–100 km/h acceleration, typically around 4.4 seconds, while the exterior dimensions—length: 4,720 mm, width: up to 2,089 mm, height: 1,440 mm—are the same as other Model 3 versions. The cargo capacity is approximately 682 liters, and the 15.4-inch central touchscreen along with modern driver-assistance systems are standard.

Specifications

- **Drive:** All-wheel drive (AWD)
- **Range:** ~660 km (WLTP)
- **0–100 km/h:** ~4.4 s (AWD)
- **Weight:** ~1,824 kg
- **Length:** 4,720 mm
- **Width:** ~1,933–2,089 mm
- **Height:** ~1,440 mm
- **Cargo capacity:** ~682 L
- **Seating:** 5 passengers
