Description

The Tesla Model 3 Standard is the entry-level version of the Model 3 family, offering the Tesla electric car experience in a simpler, more cost-effective configuration. It comes exclusively with rear-wheel drive (RWD) powered by a single electric motor. Its WLTP range is approximately 517 km on a single charge, making it suitable for longer trips as well. The Standard model accelerates from 0-100 km/h in about 6.1 seconds and has a top speed of around 201 km/h.

The body is a five-door sedan with a 5-seat interior and a large 594-liter trunk (plus an 88-liter front trunk). It weighs approximately 1,822 kg, with a length of 4,720 mm, width of 1,849 mm (without mirrors), and height of 1,440 mm. The Standard model features a 15.4-inch central touchscreen, regenerative braking system, modern driver-assistance features, and energy-efficient operation.
